Sub: - Nomination of officers for the training program at NIPHM, Hyderabad – reg.

Dear Sir/ Madam,

NIPHM, an Autonomous Organization under Ministry of Agriculture & Farmers Welfare, Government of India, aims to promote Plant Health Management bio intensive approaches to minimize the indiscriminate use of pesticides. Soil and water are the two important natural resources which maintain the plant health. Efficient utilization of water is a challenging job in agriculture sector. Another area of concern in maintaining plant health is the appropriate use of machinery. Day by day availability of farm labours are decreasing and the area of cultivation land is becoming limited. Effective usage of equipment and irrigation sources shall be a big task in front of agriculture community to meet the demand of food with the increase in population and decrease in the natural resources.

Micro-irrigation is one of the effective methods of efficient water management strategies, which adds to enormous water saving with less fertilizer use and energy savings. In India, only 7.73 million hectares is under micro irrigation, compared to a potential 69.5 million hectares.

Mechanization of agriculture is an essential input to the modern agriculture. It enhances productivity, besides reducing human drudgery and cost of cultivation. Mechanization also helps in improving utilization efficiencies of other inputs.

Keeping the importance of usage of effective irrigation technologies and use of machinery for improved plant health, NIPHM is going to organize the following training programmes under Plant Health Engineering division of the Institute.

S. No.	Training course	Duration (days)	From	To
1.	Advanced Irrigation Systems	3	19.08.2019	21.08.2019
2.	Farm Equipment for Plant Health Management	3	27.08.2019	29.08.2019

This training will help officers to provide advice to farmers for better agricultural practices for irrigation and farm equipment based on the soil and crop.

Therefore, it is requested to kindly nominate 2-3 suitable officers for the above mentioned training programme.
