The ICAR-National Academy of Agricultural Research Management (NAARM), Hyderabad announces a Massive Open Online Course on **Teaching Management** from November 1-30, 2017.

About the Course

Quality education has been the driving force for development of the nation and it depends largely on the competencies of the teacher. The development of pedagogical competencies was not addressed properly in the university curriculum, especially in professional universities. Teaching profession requires a prior initial training, not only in terms of specialized professional knowledge but also on psycho-pedagogical competencies. Teaching is an art and science. Tricks of trade (teaching) are essential for becoming good teachers. Development of teaching competencies of the faculty is needed most. This short course helps in-service, young and aspiring faculty to become effective teachers / managers of teaching.

At the end of the course....

Participants will be able to understand various dimensions of teaching management and develop effective teaching styles for quality education.

Course Syllabus

Week – I: First week will lay foundation for Teaching Management, Teaching – Learning process and teaching & learning styles. Teacher-centric and student-centric teaching methods for quality education are covered, including experiential methods.

Week – II: To become an effective teacher both communication and presentation skills are essential. Basic elements & types of communication and tips for effective communication & presentation are included in the second week. Further participants will realize different competencies required for effective teaching. Time Management, Classroom Management, Students' engagement etc., will also be covered.

Week – III: How to plan and develop a good course / lesson has been included in this week. Transformation of traditional teaching is unavoidable with integration of new modern technological tools. Participants will come to know about educational technology and how to teach with technology during this week.

Week – IV: Student's performance / grading is an important parameter in effective teaching and participants will understand dimensions of students' evaluation/ grading during this week. Participants' performance will be evaluated during through online examination. Issues and challenges in current time teaching are also addressed in this module.

Recommended Background

Those who are actively engaged in teaching or at the beginning of career in teaching profession and aspiring teachers will be benefitted much from this course. Passion towards teaching and a minimum knowledge of teaching & learning and technology are expected.

Course Format

Every week students will be expected to view 2 to 3 video lectures which are about 10 – 15 minutes each and relevant course-ware will be added to provide background on concepts relevant for the week. Most

lectures will have integrated questions/ discussions/ assignments to keep participants engaged. Performance assessment will be done through an online examination for award of a certificate. Resource materials and web links will be provided where appropriate.

Certification

On completing this course, a certificate will be issued by ICAR-National Academy of Agricultural Research Management (NAARM). Participation in discussion threads spread over four weeks and minimum marks in online evaluation will be the criteria for issue of certificate.

Programme Fee:

No programme fee. However, the successful participants will be awarded a completion certificate on payment of Rs 1000/-.
o programme fee. However, the successful participants will be awarded a completion certificate on payment of Rs 1000/-.

Session dates: November 1-30, 2017

Registration: You can register at <http://elearning.naarm.org.in> during 1 September to 30 October, 2017.

About NAARM (ISO 9001-2008)

The National Academy of Agricultural Research Management (NAARM), a constituent of Indian Council of Agricultural Research (ICAR) is the only institution of its kind in the world focusing on capacity building in agricultural research and education management. The Academy in its four decades of existence focusses on creation, dissemination and application of knowledge through its education, training, research, consultancy and policy support programmes for National Agricultural Research and Education Systems (NARES).

For programme specific queries if any, the interested participants may contact concerned Programme Directors.
