# Soil health cards distributed to ryots

**STAFF REPORTER**

**KASARAGOD**

Regular testing of soil will help the farm community optimise nutrient management of crops and reduce

the cost of cultivation thereby enhancing productivity, N.A. Nellikkunnu, MLA, has said.

He was inaugurating the distribution of soil health

cards to farmers at the Central Plantation Crops Research Institute here as part of World Soil Day on Tuesday. The cards were distributed to 100 farmers.
